

GARDNER VILLAGE

# HISTORIC SCAVENGER HUNT

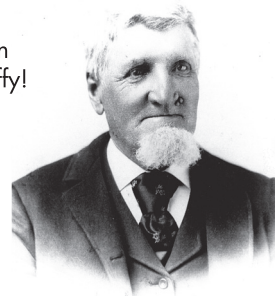

Here's your chance to make a state history lesson fun and memorable!

At Gardner Village, we're all for shouting hip-hip-hooray for our pioneer heritage. While we're a destination for family fun, shopping, dining and events, we're also a Utah historic site. Take a step back in time and discover our history. After all, we have one of the original Utah pioneers, Archibald Gardner, to thank for where we are today. Gardner built 36 mills during his lifetime, and one of those mills is now home to Archibald's Restaurant and CF Home and is listed on the National Historic Register. Beyond the mill, Gardner Village preserves state history. Just about every building on site comes from elsewhere in the state and was relocated to The Village to preserve its history.
